Please note that all images are provided as a guide only. Due to the nature of the various materials used in the manufacturing process, there may be slight variations in colour between the door outerframes and the door leaves. Handles, letterplates and door furniture may vary. As part of our commitment to continuous improvement, we reserve the right to modify/change the specification without prior notice.

The easy way to create your new door

Your door is as individual as you are. We manufacture every composite door to your exact and bespoke requirements.

Personalise your door from our vast range of styles and colours. Ranging from traditional and understated to the contemporary and modern.

The choice is yours!

1

What's your style?

Traditional or modern, glazed or solid? See page 7.

2

Say hello to colour!

Simple and sophisticated or bold and daring! See page 6 for the full range.

4

The Finishing Touch

Fabulous door furniture in 6 stylish finishes, see page 47.

3

Glass adds sparkle!

Plain, coloured, etched, make your door your own. See pages 44-4 5 for all styles.

Door Furniture

Safe, Secure & Strong

Safety and security are important to everyone.

According to Home Office official crime statistics 67% of burglars break in through the door, so that's why we only use the very best quality multi-point locking systems to keep your home and family fully protected.

Our doors are manufactured with a reinforced door frame and secured with a multi-point lock with two hooks, two finger bolts and a deadbolt. Premium adjustable hinges and keeps meet the latest standards and legislation.

Terms

Once your guarantee is registered, in the event of a burglary or break-in taking place in your home due to the failure of Yale door or window security component, Yale offers you the following compensation, subject to the terms and conditions outlined below:

1. Up to £250 off any initial call out fee to a locksmith or other professional tradesman to secure the property, including any temporary security measures. Please pay the installer direct and then provide the original receipt to Yale and up to £250 will be reimbursed by cheque direct from Yale.
2. If the product requires repair or to be completely re-made and installed, Yale will pay up to £1,000 to the original supplier (or equivalent). This will be paid by Yale directly to the supplier.
3. Yale will make a goodwill payment of £1,000 for the inconvenience and distress caused.
4. If following the break-in, you make a claim on your home insurance and this leads to an excess payment, Yale will pay up to £1,000. Just provide a copy of the insurance claim form, plus a copy of a receipt showing payment of the insurance excess.
5. In addition by registering for your Yale Lifetime Security Guarantee you can enjoy a 10% discount code for use against Yale security products purchased online at www.yalestore.co.uk (Please note this discount does not apply to fitting and installation charges, spare parts, clearance lines or package and postage fees). If components covered by the Yale Lifetime Security Guarantee were correctly fitted, adjusted and maintained, and one of the Yale products failed during the break-in, we will issue the above payments within 30 days of the claim being approved.

In the Event of a Break-in

- If the property is broken into, please arrange for the property to be secured by an appropriate professional and obtain a receipt of the professional call out charges and any temporary security measures.
- Call the police and obtain a crime reference number.
- Submit a written claim to Yale within 7 days of the break-in, including your crime reference number and the name and address of your installer.

Lifetime peace of mind

Yale offers outstanding protection against forced entry and our Lifetime Security Guarantee adds an extra line of defence. Choose Yale door hardware and you are entitled to:

Up to £1000 towards home insurance excess

In the unlikely event of a break-in, we'll pay up to £1000 towards your home insurance excess to make sure you're not left out of pocket.

Up to £1000 towards repairs or replacements

Our products are always designed to stand the test of time. That's why if a Yale component fails, we'll pay up to £1000 for repairs or replacements.

£1000 compensation

If a break-in is caused by failure of a Yale component, we'll do all we can to make it right. That includes paying £1000 compensation to apologise for the distress caused.

Up to £250 refund on call-out fees

With our Lifetime Security Guarantee*, you are fully covered if the worst should happen. We'll even refund call-out fees to secure your home if a break-in occurs due to failure of a Yale component.

- Contact the company that originally installed your door or windows within 7 days and notify them of the break-in and that you require a repair or replacement.
- Notification of any claim must be made to Yale within 7 days of the break-in. Any supporting documentation must be supplied to Yale within 30 days of the break-in.
- Yale will send a service engineer to visit the property within 10 working days of receiving your claim and will assess which components failed on the product during the break-in and whether the terms and conditions have been met. Please provide access and cooperation in order for the service engineer to assess the claim, between Monday - Friday in the hours of 9:00 - 17:00.

Conditions

The Yale Lifetime Security Guarantee is only valid when the following terms and conditions are met in full:

The home must have been broken into via forced entry through a PAS 24 door or window covered by the Yale Lifetime Security Guarantee.

The benefits of the Yale Lifetime Security Guarantee only apply where entry is gained to the property through a failure of a Yale component covered in this guarantee.

In order for a door or window to be covered by the guarantee, all window hardware (handles, hinges, and locks) must be Yale components or approved by Yale. All door hardware (handle, cylinder, multi-point lock, hinge and TS008 letterplate) must be Yale components or approved by Yale.

The guarantee does not cover components from other suppliers that may have been used on the product. If the break-in to the property is judged to have occurred due to the failing of any other component (for example broken glass) none of the above benefits will be paid.

Yale®

The Sapphire Door

Door Construction

- All cores are manufactured with the latest technology using thick GRP (Glass Reinforced Plastic) skins.
- Doors are available in 7 standard colours and any RAL of your choice using the latest spray paint technology.
- All doors have excellent thermal efficiency with doors achieving a U-Value of 1.4 or better.
- Due to the structure and components of the door leaf, they have excellent acoustic properties.
- Tested to the latest tough standards of PAS24.
- Door leaf structure has a 25 year life expectancy.
