# TRUE TIMBER ALTERNATIVE PVCu WINDOWS AND DOORS

## LAYLA FLUSH FIT WINDOWS

**When it comes to design features and sophisticated styling, the LAYLA flush fit window is in a class of its own.**

The windows have been specifically designed so that the opening sash of your window sits flush with the outer frame, giving a unique sleek and seamless appearance, as well as authentically replicating features of a traditional timber window.

As with all Chigwell windows, safety, security and longevity of your windows is paramount. Your LAYLA flush fit windows benefit from enhanced noise reduction, energy efficiency and are easy to maintain, keeping your windows looking good throughout their lifetime.

### Attention to detail

Not only does the LAYLA flush fit window authentically replicate the features of a traditional timber window, it also compliments more modern homes perfectly with their clear lines and minimalist appearance. This truly sets the LAYLA flush fit window aside in terms of look, suitability, safety and longevity.

# STAY SAFE WITH LAYLA

**Your home is the heart of family life and knowing it is secure and protected is important.**

LAYLA flush fit windows offer a range of benefits to enhance your home, family and the environment.

## Conservation Area Friendly

Due to the fact that our flush casement windows are virtually indistinguishable from real timber, this makes it ideal if your home is in a conservation or heritage area.

## 10-Year Guarantee

To provide our valued customers with extra peace of mind, our flush casement windows come with a 10-year guarantee.

## Aftercare

With you from beginning to completion and beyond, our friendly customer service team is on always on hand to assist you with any queries you may have.

## TRUST PILOT CUSTOMER REVIEWS

### Mavis Asare - 21/09/25, Rated 5 out of 5 stars

I recently had my windows installed by Chigwell Window Centre, and I must say they did an excellent job. The team was very professional, neat, and arrived right on time, which I really appreciated.

### Marney - 25/09/25, Rated 5 out of 5 stars

The team have been absolutely brilliant; they have all been very courteous to everyone and respectful to the home. Their workmanship has also been to a very high standard and it has been a pleasure to have them working on the property.

## WHAT DO LAYLA FLUSH FIT WINDOWS OFFER?

### A+ Energy efficiency rating

LAYLA flush casement windows receive an energy rating of A+ and can reach u-values as low as 0.7! Watch as your energy bills drop, saving you money.

### Noise reduction

Every one needs a good night's sleep and LAYLA offers exceptional noise reduction.

### Low maintenance

Timber windows require annual maintenance to ensure they are kept looking good - with LAYLA you can spend more time with your family.

### Enhanced Security

LAYLA windows are PAS24 security accredited which gives you an added level of security to your home and family.

### Weather Performance

Independently tested, LAYLA achieves the highest BSI ratings for wind, water and air protecting your home from the elements.

## A COLOUR FOR ALL

A beautiful array of colour options and combinations present you with a range to suit any home style and décor preference.

Choosing LAYLA flush fit will add a touch of timeless style. Modern materials and a rich spectrum of colour options combine to offer a window with style and sophistication at its heart. From the traditional and highly textured Turner Oak, to the modern Anthracite Grey, you will find the perfect match for your home.

# SUSTAINABILITY

## Shaping the future together

As a manufacturer, REHAU is conscious of the impact their actions have on people and the environment. The use of recycled materials is one of REHAU's strategic objectives and we are committed in supporting that objective by leading change in attitudes and accessibility of recycling.

### Production

Our partner customers produce EcoPuls labelled profiles, to bring you eco-designed, sustainability-produced products that save up to 97,000 tonnes of CO<sub>2</sub> per year.

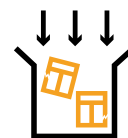

### Installation

REHAU products with the EcoPuls label are then installed in your home by our network of partners, save 13 kg of CO<sub>2</sub> in replacement and 17 kg of CO<sub>2</sub> in new construction, per window.

### Manufacturing

REHAU manufactures profiles with the EcoPuls seal. Thanks to the co-extrusion process, REHAU combines recycled and virgin raw materials without impairing the performance and usability of the new profile.

### Collection

Every year, millions of old PVCu windows, doors and production offcuts are reused in the production of new profiles with the EcoPuls label. For this reason, REHAU maintains an extensive network for the collection of these materials.

### Recycling

Collected old windows, doors and production off-cuts are carefully selected and sorted into different raw materials (e.g. glass, PVCu and steel) and then recycled. The PVCu components are then processed into high quality chip. The production of EcoPuls PVCu recycled profiles saves up to 88% in CO<sub>2</sub> emissions, compared to the production of a standard profile on the market.
